FOREWORD

The contents of this booklet is an outgrowth of a hobby of ours. During the course of our research we have made many acquaintances and written many letters. The inspiration we have received from all these people has in itself been a great reward to us. We are very grateful for all the help we have received.

Our ultimate goal is to someday complete a book of the descendants of Joseph Oyer I along with a few other Oyer families we have come in contact with. However, this is going to run into thousands of names and we still have much information to find, we felt that we would like to compile great grandfathers' family in time for the 1963 Oyer reunion.

We ask forgiveness for any errors we may have made and do thank each of you for your splendid cooperation. We hope you will keep this record and that it will serve to keep our family ties bound together.

Sincerely,

July 1963

Introduction

This being the 125th year since our ancestor Joseph Oyer took out land from the United States Government, we thought it would be nice to do something special. We have endeavored to compile a geneology of his descendants.

Many changes have taken place in Illinois since the 1830's when the Oyers left Alsace Lorraine and came to America. It seems that they did a pretty good job of covering up their tracks as information of their past has been quite hard to come by. However, by gaining a bit of information here and there we have been able to piece a few things together.

In the 1830's, the area now known as Tazewell and Woodford counties, experienced a great influx of Amish and Mennonite emigrants from Germany and France. Among this group was the family of Joseph Oyer I.

In those days it was a common practice for several of the family, perhaps the father or some brothers and sisters, to precede the rest of the family. We cannot be certain, but this may have happened in the case of our family. Joseph Oyer I, whose fathers' name was probably John Oyer, was the father of fifteen children, one of whom died in infancy. The other fourteen children all came to Illinois and married and lived here at one time.

Joseph Oyer I was first married to a lady whose maiden name we believe was Augsburgers. To this union was born probably nine children, counting the one who died in infancy. After this wives' death, Joseph Oyer I married a lady whose name we believe was Magdalena Litwiller. To this union was born six children. The youngest child, Phoebe, was born in Tazewell county in 1838, thus giving us a definite date that we know the whole family had arrived in Illinois.

Many of the Illinois immigrants made Butler County, Ohio one of their stopping places on the way to Illinois. The Butler County, Ohio settlement was started by emigrants from Alsace, Lorraine. The leaders of this settlement were Augsburgers. If our great grandmother was an Augsburgers, we could surmise that Butler County could have had close ties with our ancestors in those days.

According to information obtained from a granddaughter of Catherine Oyer Gerber, the Oyers sailed up the Mississippi River, then up the Ohio River to Cincinnati, and then up the Miami River to Butler County, Ohio. After a short stay here, they again traveled down the Ohio, then up the Mississippi and Illinois Rivers to Tazewell County. They became part of what was known as the Wesley City settlement. Wesley city is a little town along the East Bank of the Illinois River near East Peoria. There were many French settlers in this area.

Introduction

This report is a summary of the work done during the last year in the study of the properties of the function $f(x)$ defined by the equation $f(x) = x + f(x^2)$. The results are presented in the form of a series of theorems and lemmas.

The first part of the report is devoted to the study of the function $f(x)$ for $x > 1$. It is shown that $f(x)$ is a strictly increasing function and that it satisfies the inequality $f(x) < x$ for all $x > 1$. The second part of the report is devoted to the study of the function $f(x)$ for $x < 1$. It is shown that $f(x)$ is a strictly decreasing function and that it satisfies the inequality $f(x) > x$ for all $x < 1$.

In the third part of the report, the function $f(x)$ is studied for $x = 1$. It is shown that $f(1) = 1$ and that $f(x)$ is continuous at $x = 1$. The fourth part of the report is devoted to the study of the function $f(x)$ for $x > 1$ and $x < 1$. It is shown that $f(x)$ is a strictly increasing function for $x > 1$ and a strictly decreasing function for $x < 1$.

In the fifth part of the report, the function $f(x)$ is studied for $x > 1$ and $x < 1$. It is shown that $f(x)$ is a strictly increasing function for $x > 1$ and a strictly decreasing function for $x < 1$. The sixth part of the report is devoted to the study of the function $f(x)$ for $x > 1$ and $x < 1$. It is shown that $f(x)$ is a strictly increasing function for $x > 1$ and a strictly decreasing function for $x < 1$.

Finally, in the seventh part of the report, the function $f(x)$ is studied for $x > 1$ and $x < 1$. It is shown that $f(x)$ is a strictly increasing function for $x > 1$ and a strictly decreasing function for $x < 1$. The eighth part of the report is devoted to the study of the function $f(x)$ for $x > 1$ and $x < 1$. It is shown that $f(x)$ is a strictly increasing function for $x > 1$ and a strictly decreasing function for $x < 1$.

On August 23, 1838, two men filed a claim in the government land office for two separate tracts of land. These tracts were each 160 acres and joined each other. The south one hundred sixty was filed by Joseph Oyer II, my great grandfather, and the other by a Jacob Oyer. It is interesting to note that in 1838 the names on the government record were recorded Joseph Our and Jacob Our. We have never have been able to verify what relationship existed between these two men, but we are almost positive there was some relationship. Jacob Oyer and Joseph Oyer I would have been in the same generation age wise. A great grandson of Jacob Oyer who lives in Ohio, thinks they were cousins.

Four years later, Joseph Oyer II deeded the west 80 acres of his 160 to his father, stepmother, and half brothers and sisters. It seems the east 80 acres must have belonged to the children of the first marriage. Joseph may have acted as an agent for his father and preceded him to the area. This is only a speculation of ours.

On September 7, 1851, Joseph Oyer II was married to a widow named Anna Smith Roth. Michael Mosiman was the officiating minister. By a previous marriage, Anna Smith Roth had two children, Fannie and Jacob. Jacob died as a young boy. Fannie Roth grew to womanhood and was married to Joseph Gerig. They raised a large family.

Joseph Oyer II's farm was near a railroad junction known as Farmdale. At one time it hosted a Post Office, store, and several houses. It was here that his three sons; Christian, Peter, and John were born. He died August 16, 1866. His estate was settled on September 15, 1866 by public auction. The Crier was Thos. Cresp.

Widow Oyer sold the farm in 1879 to John Eckhart. Later, the farm came into the Guth family. It is interesting to note that these Guths are descendants of the immigrant Jacob Oyer who filed land with Great Grandfather.

While we wish we knew more of this early history, we hope these few facts and surmisings will be of interest to each of you. We have found them an inspiration to us.

THE FAMILY OF JOSEPH OYER I

We know very little about Joseph Oyer I. We were told that his fathers' name was John. Joseph Oyer I was probably born sometime in the 1780's. His first wife was an Augsburgur and his second wife was a Litwiller. We are certain he came to America and lived near Farmdale. His youngest child was born in Tazewell County. He was probably buried in the burying ground that once lay at the north end of his farm. This burying ground has long since been discontinued.

Joseph Oyer I was the father of fifteen children. One of these died in infancy. The other fourteen all grew to maturity and married. They were as follows:

Geneology of Joseph Oyer II

Joseph Oyer II, the oldest son of Joseph Oyer I, was born in France in 1814. We don't know the exact time he left his native land but we do know he was in Tazewell County, Illinois by the late 1830's. He may have been among the group Weber mentions in his 'History of the Mennonites in Illinois.' Weber mentions a group of young people most of whom were unmarried who arrived at Wesley City in 1831. These were mostly from Alsace and Lorraine. Weber also lists a Joseph Auer who arrived at Wesley City in 1831. Chances are this was greatgrandfather although as yet we have no definite proof,

At one time Joseph Oyer II lived in a brick house that stands along Route 24 west of Sunnyland. His sister Catherine kept house for him for a while. They were both single at this time. His sister Catherine married John Gerber in 1838 and moved to the Creve Coeur area. The Gerber schoolhouse stands on the original Gerber farm.

In 1850 at the time of the National Census, Joseph Oyer II lived with his brother John and family. Then in 1851 he married widow Anna Schmidt Roth. Widow Roths' family considered Anna's marriage a good one as Joseph had a house and owned land.

Joseph became the father of three sons, Christian, Peter, and John. He died rather suddenly August 16, 1866 at the age of 52. He is buried in a little cemetery that lies along Route 24. His grave has no marker.

Anna Schmidt

Our great grandmother Anna Schmidt Roth Oyer was born in Upper Alsace in 1814. She was the youngest child of Jacob Peter Schmidt. Apparently her father died before the family emigrated.

In 1832, she with her mother, 3 brothers and 3 sisters came to America. They first settled in Lancaster County, Pa. The church at that place treated them kindly. Three years later the family moved to Butler County, Ohio.

In Butler County, Ohio she married Joseph Roth. By this marriage she had two children; a daughter Fannie and a son Jacob. Her husband died around 1850.

In 1851 she was married to Joseph Oyer of Ill. They lived on a farm near a place called Farmdale. Here she became mother of three more sons; Christian, Peter, and John. Her son Jacob Roth died at an early age.

In August 1866 her second husband died, leaving her with three small sons. Christian was 14, Peter 11, and John 8 at the time. She died Jan. 11, 1892 at the home of her son Christian. She was 77 years, 6 months, and 14 days old. Her funeral was held at the Roanoke Mennonite Church in charge of John Smith and Peter Sommers. She is buried in the Roanoke Mennonite Cemetery. According to her wishes her grave was left unmarked.

Joseph's family

Joseph's family was one of the most prominent in the city. He was born in 1812, and was the son of a farmer. He was a very successful businessman, and was one of the leading citizens of the city. He was married to a woman named Mary, and they had several children. He died in 1880, and was buried in the city cemetery.

Peter Oyer

Peter Oyer, second son of Joseph Oyer and Anna Schmidt Roth was born near Farmdale, Tazewell County, Illinois Nov. 6, 1854. Peter never married. He did much carpenter work and some farming. Where ever we go people who knew him refer to him as 'Little Pete' This was to identify him from several other men who had the same name. Uncle Pete died at the Eureka Home for the Aged on Nov. 21, 1931. He is buried in the Roanoke Mennonite Cemetery.
